

Activity: Make your own Celtic cross

Materials

- Cut out card Celtic Cross (use printables.com Celtic Crosses templates, blank template page 4)
- Four gold/silver shiny self-adhesive stickers or card circles
- Seven or eight strands of coloured thread approx. 20/25 cm long (You could use a few strands of different colours of embroidery silk, crochet cotton, or a random dyed cotton as per photograph)
- A flat lolly stick
- Pritt stick

Instructions

- Stick on the four gold circles as in the photo
- Starting from the base of the cross, spread some glue, then drop one of the threads so that it loops. Use the lolly stick to press down and rearrange if needed (Using the lolly stick prevents sticky fingers)
- Repeat this as per the photo, so that the length of the cross, the four arms, and centre all have some looped thread
